**Partnered with Pinnacle Machine Tool Inc.**

to offer you more quality & affordable machine tool options!

Diverse Manufacturer of CNC Machine Tools including Double Column Mill, 5-Axis, High Speed Vertical, Lathe & more.

High Precision lathes and machining centers for automotive, aerospace and orthopedic industries .

Re-introduced Quality CNC machining centers that includes: VMC's, 5-axis VMC's, and horizontal lathes.

Detailed rebuild process, high-speed control upgrade and dedication to quality & accuracy bringing you near -new capabilities.

High Value CNC Turning and machining centers, including for tool and die, oil & gas, and automotive.

Affordable VMC's with standard features like Fast DATC, 12K rpm spindles, Coolant thru prep, 4th axis pre-wire. Remote MPG, high speed machining & UL certification...

High Quality options; Turning, Horizontal Lathes, Vertical Turning, Swiss Turning, Live Tooling, Y-Axis Sub-Spindle, Twin turret & Twin Spindle

Specializes in the design and manufacture of centerless, cylindrical, internal and vertical grinders .

Your source for Double Column Multi head to flat table automatic & CNC surface grinders, cylindrical grinders & more.

Hanwha Machinery America

The high quality / low cost, best kept secret in CNC Swiss and Multi-Axis bar work

High precision, high quality automated CNC turning centers for efficient automated production.

AVEREX Automation Co., Ltd.

Specializing in quality HMC with expandable multi-pallet systems for automated solutions

High-speed vertical and horizontal machining centers for high-volume automotive and related production.

Largest Builder of CNC Vertical Lathes, CNC Vertical Turning Centers, CNC High-Speed Drilling Centers and CNC Vertical Grinding Center

A Fermat Group Company

Builder of 2 types of horizontal boring mills (HBM); WFT (Table Type) and WRF (Floor Type) with auto or manual dedicated or multi-axis heads.

Moving Gantry or Fixed Table 3 and 5-Axis Routers for the plastic/composite, metal and wood industry.

Cutting Without limits

Georgia USA based global supplier of single gantry or multiple gantry, dual Z-axis head, 3 or 5-axis water jet cutting systems.

NORTH AMERICA

Largest product offering of eccentric and hydraulic presses for high speed or heavy capacity demand.

**As always VMC is still here to support you with all your CNC repair, maintenance, parts and upgrade needs!**

**Call us today to schedule a service visit or to get details on any of our machines offered!**
